Re: Modine Manufacturing Company – Camdenton, MO
Quarterly Report for period ending December 31, 2009
AOC No. 99-HW-002

Dear Ms. Kump-Mitchell:

The following is a summary report of the activities completed during the period October 1, 2009 through December 31, 2009 at the above referenced site. This report is being submitted as required by the Corrective Action Abatement Order on Consent, Order No. 99-HW-002 (AOC) paragraphs 91 through 94.

Description of work completed during the quarter:

10/13/09: A conference call was held with Christine Kump-Mitchell of MDNR, Monica Martin of CH2MHill, and Thomas Meitner of Modine. Topics of discussion included MDNR's groundwater monitoring well Operation and Maintenance (O&M) Inspection Report dated September 30, 2009, MDNR's review of the Final Resource Conservation Recovery Act Facility Investigation (RFI) Report dated July 23, 2009 as submitted by Modine, and a review of the status of the draft Environmental Covenant.

10/13/09: A phone conversation was held with Christine Kump-Mitchell and Thomas Meitner. Topics of discussion included: MDNR's request of Modine to provide a letter of notification of property sale to enable issuance of a final Environmental Covenant, a discussion of the modification of Administrative Order on Consent to include the property's new owner, and Modine's intent as a tenant to retain liability for site soil conditions

10/13/09: MDNR forwarded TCE toxicity comments from David Garrett and Jeremy Johnson of the USEPA regarding the Final RFI Report to Modine.

10/14/09: A phone conversation was held with Bruce Stuart and Thomas Meitner. Topics of that conversation included a discussion of the MDNR groundwater monitoring well O&M Inspection Report. MDNR requested Modine contact Stantec, Sundstrand/UTC's consultant, to ensure they would be completing any necessary corrective actions indicated by the O&M Report. Also discussed was the status of the Final RFI Report.

11/10/09: Thomas Meitner contacted Brad Barquest of UTC to discuss the MDNR groundwater monitoring well O&M Inspection Report, and Sundstrand/UTC's responsibility to correct the identified deficiencies. A hard copy of the MDNR O&M Inspection Report was forwarded to Mr. Barquest.

11/10/09: A phone conversation was held with Thomas Meitner and John Alberg of Stantec. Mr. Stantec agreed that Modine's responsibility was limited to on-site soil conditions and that Sundstrand/UTC retains area-wide groundwater responsibility including well maintenance. Thomas Meitner agreed to allow Stantec representatives access to the Modine site to conduct well

observations and to conduct corrective actions as deemed necessary by the MDNR O&M Inspection Report.

11/10/09: Stantec representatives conducted a site inspection of wells at the Modine site.

11/10/09: Thomas Meitner submitted a letter to Bruce Stuart which summarized subsurface responsibilities of Modine and Sundstrand/UTC, and confirmed for MDNR Sundstrand/UTC's intention of conducting corrective actions with respect to the groundwater monitoring well O&M Inspection Report findings.

11/19/09: Thomas Meitner submitted a letter to Christine Kump-Mitchell formally notifying MDNR of a change of property ownership. Included in that correspondence are "Easement and Access Agreements" between Modine and new property owner, a draft Environmental Covenant (that version not yet finalized by MDNR) and excerpts of the sale contract which assign on-going site environmental responsibilities related to the property.

Summary of findings, data, etc.:

Modine received MDNR's groundwater monitoring well O&M Inspection Report on October 5, 2009.

Summary of problems or potential problems and any corrective measures implemented:

No problems were encountered during the quarter being reported.

Projected work for the next reporting period:

As of December 31st, Modine was awaiting MDNR's issuance of the final Environmental Covenant.

Instances of Non-compliance with the requirements of the Order:

There were no instances of non-compliance with the requirements of the Order during this reporting period.

If you have any questions concerning this report, please contact Mr. Thomas E. Meitner, EH&S Manager at (262) 636-1412, or by email at t.e.meitner@modine.na.com.

Sincerely,

David L. Lidester
Regional Services Director – Americas
